Dear Mr. Ferdas:

The Department has reviewed your correspondence dated May 12, 1994 regarding the C & D Recycling Site.

The issue regarding the ten day review period during the ROD preparation in 1992 does not require additional comment. Since that time, DER has had adequate time to consider the remedy. DER believes EPA should now move to insure the implementation of the Remedial Design/Remedial Action phase at this site.

We look forward to continuing to work with EPA in cleaning up this site.

Sincerely,

Ed Shoener
Regional Director
